In total for the year to date through this press release, the Company has acquired seven properties for \$167.2 million and currently has two additional properties under contract for \$41.3 million.

Unconsolidated Joint Venture Activity

During the third quarter of 2018, the Company's joint venture, HVP IV, acquired two properties located in Florida and Georgia for \$20.5 million. Year to date through the date of this release, HVP IV has acquired ten properties for \$114.4 million, of which the Company has contributed \$14.1 million. Additionally, HVP IV has two properties under contract for \$15.1 million that are expected to close during the fourth quarter of 2018.

On August 15, 2018, HVP IV received a second advance of \$24.4 million on its \$107.0 million loan facility, which encumbers an additional five stores that were acquired by the venture, bringing the total outstanding debt balance to \$68.1 million as of September 30, 2018. The loan bears interest at LIBOR plus 1.70% and matures on May 16, 2021 with options to extend the maturity date through May 16, 2023, subject to satisfaction of certain conditions and payment of the extension fees as stipulated in the loan agreement.

Development Activity

The Company has agreements with developers for the construction of Class A self-storage properties. These agreements are structured as either purchases at completion of construction and issuance of certificate of occupancy ("C/O") or as joint venture developments. During the three and nine months ended September 30, 2018, the Company opened for operation one joint venture development property in New York for a total cost of \$91.5 million.

As of September 30, 2018, the Company had one property under contract to purchase at C/O for a total acquisition price of \$19.2 million. The store is located in California and closing is expected to occur during the fourth quarter of 2018. This acquisition is subject to due diligence and other customary closing conditions, and no assurance can be provided that the acquisition will be completed on the terms described, or at all.

As of September 30, 2018, the Company had six joint venture development properties under construction. The Company anticipates investing a total of \$160.0 million related to these projects and had invested \$70.1 million of that total as of September 30, 2018. These stores are located in New York (3), Massachusetts (2), and New Jersey. The six projects are expected to open at various times between the first quarter of 2019 and the fourth quarter of 2019.

Third-Party Management

As of September 30, 2018, the Company's third-party management program included 582 stores totaling 38.8 million square feet. During the three and nine months ended September 30, 2018, the Company added 60 stores and 148 stores, respectively, to its third-party management program.

Same-Store Results

The Company's same-store portfolio at September 30, 2018 included 458 stores containing approximately 31.6 million rentable square feet, or approximately 91.8% of the aggregate rentable square feet of the Company's 490 owned stores. These same-store properties represented approximately 94.7% of property net operating income for the quarter ended September 30, 2018.

Same-store physical occupancy at period end for the third quarter of 2018 was 92.7%, compared with 93.5% for the same quarter of last year. In the 2017 quarter, ending occupancy was positively impacted by rentals from hurricanes Harvey and Irma. Same-store revenues for the third quarter of 2018 increased 3.0% and same-store

operating expenses increased 0.6% from the same quarter in 2017. Same-store net operating income increased 3.9%, as compared with the same period in 2017.

Operating Results

As of September 30, 2018, the Company's total owned portfolio included 490 stores containing 34.5 million rentable square feet and had a physical occupancy of 90.4%.

Revenues increased \$9.5 million and property operating expenses increased \$1.6 million in the third quarter of 2018, as compared with the same period in 2017. Increases in revenues were primarily attributable to increased net effective rents in the same-store portfolio as well as revenues generated from property acquisitions and recently opened development properties. Increases in property operating expenses were primarily attributable to a \$0.2 million increase in same-store expenses driven by higher property taxes and a \$1.3 million increase in expenses associated with newly acquired or developed stores.

Financing Activity

During the third quarter, the Company sold 0.4 million common shares of beneficial interest through its "at-the-market" equity program ("ATM") at an average sales price of \$31.38 per share, resulting in net proceeds of \$12.9 million, after deducting offering costs. As of September 30, 2018, the Company had 11.2 million shares available for issuance under the existing equity distribution agreements.

Quarterly Dividend

On August 7, 2018, the Company declared a dividend of \$0.30 per common share. The dividend was paid on October 15, 2018 to common shareholders of record on October 1, 2018.

2018 Financial Outlook

"Based on our solid performance to date, we have increased the midpoint of our FFO per share guidance and provided an improved outlook on certain same store operating metrics," commented Chief Financial Officer Tim Martin. "We remain selective and disciplined in pursuing external growth opportunities. During the third quarter, we added 60 stores to the third party management platform, opened for operation one new development property, and acquired three properties on balance sheet as well as two properties in a joint venture."

Fully diluted EPS allocated to common shareholders for 2018 is now expected to be between \$0.83 and \$0.84 (previously between \$0.80 and \$0.84). Fully diluted FFO per share, as adjusted, for 2018 is now expected to be between \$1.63 and \$1.64 (previously of between \$1.61 and \$1.65). We have also adjusted other guidance assumptions to reflect third quarter results. Due to uncertainty related to the timing and terms of transactions, the financial impact of any potential future investment activity is excluded from guidance. For 2018, the same store pool consists of 458 properties totaling 31.6 million square feet.

About CubeSmart

CubeSmart is a self-administered and self-managed real estate investment trust. The Company's self-storage properties are designed to offer affordable, easily accessible and secure storage space for residential and commercial customers. According to the 2018 Self-Storage Almanac, CubeSmart is one of the top three owners and operators of self-storage properties in the United States.

Non-GAAP Financial Measures

Funds from operations ("FFO") is a widely used performance measure for real estate companies and is provided here as a supplemental measure of operating performance. The April 2002 National Policy Bulletin of the National Association of Real Estate Investment Trusts (the "White Paper"), as amended, defines FFO as net income (computed in accordance with GAAP), excluding gains (or losses) from sales of real estate and related impairment charges, plus real estate depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures.

Management uses FFO as a key performance indicator in evaluating the operations of the Company's stores. Given the nature of its business as a real estate owner and operator, the Company considers FFO a key measure of its operating performance that is not specifically defined by accounting principles generally accepted in the United States. The Company believes that FFO is useful to management and investors as a starting point in measuring its operational performance because FFO excludes various items included in net income that do not relate to or are not indicative of its operating performance such as gains (or losses) from sales of real estate, gains from remeasurement of investments in real estate ventures, impairments of depreciable assets, and depreciation, which can make periodic and peer analyses of operating performance more difficult. The Company's computation of FFO may not be comparable to FFO reported by other REITs or real estate companies.

FFO should not be considered as an alternative to net income (determined in accordance with GAAP) as an indication of the Company's performance. FFO does not represent cash generated from operating activities determined in accordance with GAAP and is not a measure of liquidity or an indicator of the Company's ability to make cash distributions. The Company believes that to further understand its performance, FFO should be compared with its reported net income and considered in addition to cash flows computed in accordance with GAAP, as presented in its Consolidated Financial Statements.

FFO, as adjusted represents FFO as defined above, excluding the effects of acquisition related costs, gains or losses from early extinguishment of debt, and other non-recurring items, which the Company believes are not indicative of the Company's operating results.

The Company defines net operating income, which it refers to as "NOI," as total continuing revenues less continuing property operating expenses. NOI also can be calculated by adding back to net income (loss): interest expense on loans, loan procurement amortization expense, loan procurement amortization expense – early repayment of debt, acquisition related costs, equity in losses of real estate ventures, other expense, depreciation and amortization expense, general and administrative expense, and deducting from net income

(loss): gains from sale of real estate, net, other income, gains from remeasurement of investments in real estate ventures and interest income. NOI is not a measure of performance calculated in accordance with GAAP.

Management uses NOI as a measure of operating performance at each of its stores, and for all of its stores in the aggregate. NOI should not be considered as a substitute for operating income, net income, cash flows provided by operating, investing and financing activities, or other income statement or cash flow statement data prepared in accordance with GAAP. The Company believes NOI is useful to investors in evaluating operating performance because it is one of the primary measures used by management and store managers to evaluate the economic productivity of the Company's stores, including the ability to lease stores, increase pricing and occupancy, and control property operating expenses. Additionally, NOI helps the Company's investors meaningfully compare the results of its operating performance from period to period by removing the impact of its capital structure (primarily interest expense on outstanding indebtedness) and depreciation of the basis in its assets from operating results.
